LIFETIME RESIDENT OF OAKVILLE

IT'S BEGINNING TO LOOK A LOT LIKE... NORMAL!

As 2021 wraps up, life may be returning to a post-pandemic normal and although Oakville's housing market still shows signs of its impact, there's a lot to be excited for. With Average Prices up 22% from this time last year and a recent steadiness of listings and sales, the volatility of the market seems to have settled so homeowners looking to sell this holiday season are understandably full of cheer. The main reason for the success in sales is the unexpected low supply of inventory which has properties getting snapped up faster than ever. The total number of new listings saw a decrease of 36% for Single Family homes and 34% for Townhouses and Condos compared to last year. For those hoping to buy – whether it's moving the family to a new house or finding an office space, there are still options available but acting quickly is in your best interest. Due to the competition on bids and spike in prices, a major trend we're seeing are first-time home buyers reaching out to their families to help them complete down-payments and co-sign for purchases. Stay tuned for more market insights with Oakville's hardest working team!

Homes For The Holidays with RINA

It's that time of year again! As the snow gathers and a new calendar of possibilities arrives, I wanted to wish you the best and share my appreciation for including me in your life's journey. 2021 has been quite the experience and I felt it was important to reach out, spread some cheer and remind those I care about that there are plenty of fantastic times to look forward to in the near future. Please feel free to stay in touch and I hope your home is filled with excitement and joy this winter.
